Miss Ruth Sleeper
Director, Nursing Department
Massachusetts General Hospital
Boston, 14, Mass.
U.S.A.

Dear Miss Sleeper:

In planning for field experience for our degree students,
we are wondering if three of them could spend some time with
you during May.

Two of the students are interested in your Nursing Education
programme and one in Nursing Supervision.

If it would be possible for you to accommodate these students
we shall send you further information regarding their programmes.

We very much appreciate your consideration of this request and
look forward to your reply.

Yours sincerely,

Elizabeth Logan
H.S.

Dear Miss Logan:

Thank you for your kind letter.
My stay in the United States is to be very short. I expect to be in Boston only one week, and wish to observe in maternity units if possible wherever I can. Unfortunately, we have already accepted the maximum number of students for supervision that can be accommodated.

However, we should be happy to have the two interested in education and to do our best to provide a profitable experience. If you wish to consider us for these two, please give me further information on length of stay, dates, desired experience, etc.

Sincerely yours, Lendar. I hope it reminds you of your visit to Australia.
Again my thanks for your help,.

Dear Miss Sleeper,

Thank you for your kind letter.

My stay in the United States is to be very short. I expect to be in Boston only one week, and wish to observe in maternity units if possible wherever I go.

I have obtained 12 weeks leave and plan to travel over America and home to visit my people in England, and then go to the International Maternity Congress in Berlin and then return here.

I shall write to Miss Jepson of the Boston Lying in Hospital and ask her to help me.

Please accept this little calendar. I hope it reminds you of your visit to Australia.

Again my thanks for your help,.

Yours sincerely,

Director, Nursing Department
Hobart
Massachusetts General Hospital
Tasmania, Australia
Boston 14, Mass.

Dear Miss Guest:
Dear Miss Sleeper:

Thank you very much indeed for the calendar. I am delighted to have it, and through it to renew my acquaintance with Australia. As I told you in my letter of December 23, I have always remembered Tasmania as being particularly beautiful.

Field experience commences on May 6 and finishes on May 25.

I do hope Miss Jepson can be helpful to you in arranging your visit to the Boston Lying-in. If there is anything further that I can do please be sure to let me know. Both of these students have been studying Teaching of Nursing as their nursing major and in this course the emphasis has been on how students learn to nurse. These students are interested in the total educational programme, the solution of clinical experiences and evaluation. Sincerely yours, Mirth Sleeper, R.N. Both of these students have been studying Teaching of Nursing as their nursing major and in this course the emphasis has been on how students learn to nurse. These students are interested in the total educational programme, the solution of clinical experiences and evaluation. Mirth Sleeper, R.N. Director of the School of Nursing and Nursing

Would it be possible for these students to have accommodation in the nurses' residence? They would appreciate this privilege and be prepared to pay whatever rate is required. You did not mention a fee and we would like to know if there is one. Also, do you wish these students to wear uniforms or laboratory coats?

A profile of these students is enclosed.

We look forward to hearing from you.

Yours sincerely,

Mirth Doyle

February 24, 1966.

Miss Ruth Sleeper
Director, Nursing Department
Massachusetts General Hospital
Boston 14, Mass.

Dear Miss Sleeper:

Your letter to Miss Logan has been referred to me. We are pleased that you are able to accept two students for field experience in May in Nursing Education.

Field experience commences on May 6 and finishes on May 25.

Both of these students have been studying Teaching of Nursing as their nursing major and in this course the emphasis has been on how students learn to nurse. These students are interested in the total educational programme, the solution of clinical experiences and evaluation. These students have a limited background in teaching and it would be helpful to them if they could spend some time with a clinical instructor. Miss Simpson would like to spend some time on a surgical ward with a clinical instructor and Miss Briggs would be pleased to be on either a medical or surgical ward.

Would it be possible for these students to have accommodation in the nurses' residence? They would appreciate this privilege and be prepared to pay whatever rate is required. You did not mention a fee and we would like to know if there is one. Also, do you wish these students to wear uniforms or laboratory coats?

A profile of these students is enclosed.

We look forward to hearing from you.

Yours sincerely,

Mirth Doyle
Assistant Professor of Nursing

MD/jw

Encl.

Miss Ruth Briggs graduated from St. John's General Hospital, New Brunswick in 1956; worked as a staff nurse in the operating room for one year; took post graduate course in operating Room Technique at the Royal Victoria Hospital, Montreal; worked as Operating room nurse two years at Royal Victoria Hospital; accepted position as Assistant Head Nurse in operating room at Calgary General Hospital; received diploma in Public Health Nursing (McGill) 1963; worked as Industrial Nurse for Bell Telephone Company, two years.

Miss Evelyn Simpson graduated from Atkinson School of Nursing, Toronto in 1969; worked as staff nurse for one year; received diploma in Teaching & Supervision in Medical and Surgical Nursing (McGill) 1963; held position of Assistant Head Nurse on surgical floor one year; worked as staff nurse in operating room, one year.

1:00 - 2:30	Evaluation of Students	Miss M. Grady - Clinics 3
<u>2:30 - 3:00</u>	Summary	<u>Miss Sleeper</u>

separated from us although it is not at all our program. I think that either one of these would be well worth their time on Friday, May 6, to give them a slightly different view. Then they would begin with us on Monday, May 9, having as I understand it thirteen days of observation with us.

We would be glad to have Miss Simpson and Miss Briggs live in one of our residences. They can come to the residence as early in the week of May 1 as you and they choose. They will live in Bartlett Hall which is at St. Blossom Street. The taxi from either the station or the airport could take them directly to the residence, which will be expected. I would suggest if they do come by plane from the airport to the Hospital, since it is simple and in the final analysis costs no more than if they take a taxi to the Statler Hotel and then a taxi to the residence. Together it is not an expensive trip to come from the airport.

March 8, 1966

Miss Mirth Doyle
Assistant Professor of Nursing
McGill University
School for Graduate Nurses
3506 University Street
Montreal 2, Quebec

Dear Miss Doyle: Our usual charge for such observation is \$5.00 per nurse per day. The housing is at the rate of \$3.00 per day. They will be free. We shall look forward to the arrival of Miss Simpson and Miss Briggs. There will be no problem in their placement. Although our Medical-Surgical Course is a combined course, some of the students are on a frankly medical unit at this time, some on a completely surgical unit, and some on a combined medical-surgical unit, so there should be no problem.

Relative to the time - I am questioning the value of the two starting with us on May 6 which is a Friday. If it is essential that their field work begin on this day, I would like to suggest that they have some other opportunity for observation of a very different kind of program on that day. For example, we have two of the Associate Degree programs in this area, one of which has been established for some six or seven years and is perhaps a more typical program of the two-year community college type. It is in Newton and is run by the City of Newton, the nursing program being a part of the broader plan for education at that level. I would think if they have any interest in it, you or they might write directly to the Director of the Nursing Program at the Newton Junior College in Newton, Massachusetts.

The second one would be easier for them to find, since it is right here in Boston a very short trip by subway from the Hospital. This one is at Northeastern University. It is typical as far as its curriculum goes but it is in a university with a work-learn philosophy, and consequently the program is spread over three years instead of the conventional two, and the student in this extra time works for hire in hospitals in her second and third years, alternating blocks of instruction with nursing and clinical experience with blocks of employed work as a nurses aide in one of three Boston hospitals. If they would like to observe at Northeastern University College of Nursing on May 6, I would suggest that they write to Miss Charlotte Voss, Dean of the College of Nursing, 360 Huntington Avenue, Boston. As we participate in this program, both in supplying the facilities for teachers and students to use, as well as in employing some of these students in the cooperative work period, this is not really too widely

On my personal file
1966

Dear Miss Sleeper

Our Doctor's daughter — Jane Lamb — is a Student, and is coming over to your Country, — with ^{next month} other Students from her College, to study your architecture. If any of them find it sufficiently interesting, they will be given the opportunity to return for a period of twelve months.

May I give her your name + address as a possible friend in a strange Country? They are visiting New York + Boston. I believe Scott Parry studied in Boston for a time, and he lives in New York. But, he phoned me a week ago from London Airport whilst on his way to Africa, so, I cannot ask him.

I do not want to worry you with this as there is no doubt you are a busy person. But, you may be able to suggest something for her. I hope you are well, and all goes well with you. I have come to that stage of old age + decrepitude when the eyes fail and the memory is weak. However, I do my best to carry on.

With warm greetings + every good wish

Yours sincerely

Annie L. Hughes.

architecture which is native to New England and

considered a very real historical piece. In fact,

it is one of the country's national shrines. This

will be no worry at all, and I hope to be able to

see her.

We are still ringing our bells almost every Monday night. At the moment one of the group is on holiday and so we are unable to meet because we are already short one other member, but we still hope to find a member who will be congenial, interested in coming regularly so that we may again have our full band, and play sometimes with other groups. The festival for the group in this area of New England is in early May, just outside Boston on a Sunday afternoon.

May I write on behalf of a Miss B. M. L. Sob, a splendid Singaporean. She is a very well educated girl who speaks clear English and who underwent her training for the State Registered Nurse Diploma at Chesterfield in England. Six months ago she came to work in my Intensive Therapy Unit and was a great success and seemed to me to revel in the excitement and interest of the work. I should have told you earlier that poor Marion Simpson died not long ago from metastases following a radical mastectomy. She is a terrible loss to us. She was, however, wonderful over the development of our Intensive Therapy Unit which I think you would find full of M.G.B. ideas. She knew Miss Sob very well and often talked to her about the Intensive Therapy Unit at the Massachusetts General Hospital.

Miss Sob has asked me whether there would be any possibility of her working at the Massachusetts General Hospital for six months from July or August 1967. She has already been recommended to apply for a Churchill Scholarship which might help her with her fare. She is also anxious to know

May I write on behalf of a Miss B. M. L. Soh, a splendid Singaporean. She is a very well educated girl who speaks clear English and who underwent her training for the State Registered Nurse diploma at Chesterfield in England. Six months ago she came to work in my Intensive Therapy Unit and was a great success and seemed to me to revel in the excitement and interest of the work. I should have told you earlier that poor Marion Simpson died not long ago from metastases following a radical mastectomy. She is a terrible loss to us. She was, however, wonderful over the development of our Intensive Therapy Unit which I think you would find full of M.G.H. ideas. She knew Miss Soh very well and often talked to her about the Intensive Therapy Unit at the Massachusetts General Hospital.

Miss Soh has asked me whether there would be any possibility of her working at the Massachusetts General Hospital for six months from July or August 1967. She has already been recommended to apply for a Churchill Scholarship which might help her with her fare. She is also anxious to know

whether there would be any possibility of her receiving some salary if she worked as a nurse. We have, of course, been very non-committal about this, but I felt in fairness I ought to write to you before giving her full advice. I need hardly say that I have a very good opinion of her and find her conscientious, courteous and efficient and not at all frightened by all the instrumentation with which we now drape our wards in 1966!

I know how busy you are with a tremendous correspondence and please do not hesitate to hand this problem on to someone else who might advise me.

Forgive this very short letter. Betty sends her love,

Yours ever,

Pou d' Ale

Dear Miss Sleeper,

APR 4 1966

Before I leave today I do want to thank you and feel how much my visit to M.S. H. has been of value.

Not only did I gain much from being allowed to observe your programs and work methods but also from observing and listening to your nurses. The competence, the integrity, loyalty and loving kindness could only have flowered under superb leadership. I watched, I listened, I evaluated and I learned a great deal. Thank you for the privilege

Yours very sincerely
Margaret F. Surp.

If Miss Soh will write to the American Nurses' Association, 10 Columbus Circle, New York, New York, and if she will put on the Envelope Exchange Visitor Program, I know they will try to help her, as shall we. It would also be helpful if we might hear from her to tell us in what particular aspect of our program April 12, 1966 we are interested. In a six months period, if she is to earn, it probably would be necessary for her to stay in one place in order for her

Professor A. L. d'Abreu, O.B.E.
Queen Elizabeth Hospital
Edgbaston
Birmingham 15, England

Dear Mr. d'Abreu:

How nice to hear from you and to have a little news of your activities.

In some way I had missed the fact that you had lost Miss Simpson. She must have left a tremendous gap in the management area as well as the direct patient care area on your service, and in the hospital as a whole.

It is some time since we have taken a nurse from abroad on the basis that you would like to have Miss Soh come to us. But I think that we could take her classified as what we call an "Exchange Visitor." There are certain steps that she would need to pursue. First of all, she should apply to the American Nurses' Association. It is probable that there may have to be some arrangements made through her own nursing association at home, but this she will be told how to manage.

We stopped accepting nurses from abroad because we found that most of them if not all needed to earn in order to make the trip, and too many of them were more interested in seeing the United States than they were in learning about nursing in this country and working to do so.

The Exchange Visitor program according to our citizenship requirements here in the State of Massachusetts can be only a six months experience, but we will try to do the best we can to give her an experience which will be helpful. I know the nurses themselves would welcome her because they love to have nurses from abroad. The payment on the Exchange Visitor program would be sufficient to pay her board and room, with a little spending money on which to see Boston. It would not be possible I am sure for her to really save anything for an extended trip here in the United States.

Thanking you in anticipation,
Yours sincerely,
Kevin J. Walsh

April 12, 1966

Professor A. L. d'Abreu, O.B.E.
Queen Elizabeth Hospital
Edgbaston
Birmingham 15, England

Dear Mr. d'Abreu:

How nice to hear from you and to have a little news
of your activities.

In some way I had missed the fact that you had lost
Miss Simpson. She must have left a tremendous gap in the
management area as well as the direct patient care area on
your service, and in the hospital as a whole.

It is some time since we have taken a nurse from
abroad on the basis that you would like to have Miss Sch come
to us. But I think that we could take her classified as what
we call an "Exchange Visitor." There are certain steps that
she would need to pursue. First of all, she should apply to
the American Nurses' Association. It is probable that there
may have to be some arrangements made through her own nursing
association at home, but this she will be told how to manage.

We stopped accepting nurses from abroad because we
found that most of them if not all needed to earn in order to
make the trip, and too many of them were more interested in
seeing the United States than they were in learning about nursing
in this country and working to do so.

The Exchange Visitor program according to our citizenship
requirements here in the State of Massachusetts can be only a six
month experience, but we will try to do the best we can to give
her an experience which will be helpful. I know the nurses them-
selves would welcome her because they love to have nurses from
abroad. The payment on the Exchange Visitor program would be
sufficient to pay her board and room, with a little spending money
on which to see Boston. It would not be possible I am sure for
her to really save anything for an extended trip here in the United
States.

If Miss Soh will write to the American Nurses' Association, 10 Columbus Circle, New York, New York, and if she will put on the envelope Exchange Visitor Program, I know they will try to help her, as shall we. It would also be helpful if we might hear from her to tell us in what particular aspect of our program she might be interested. In a six months period, if she is to earn, it probably would be necessary for her to stay in one place in order for her first to become oriented and then to contribute. However, we would be very much interested in knowing in what particular service or services she is most interested.

Please give my best personal wishes to Mrs. d'Abreu. I am sure the children will not remember me, but they are included in my good wishes to the family.

Sincerely yours,

Dear Sir,

Ruth Sleeper, R.N.
Director of the School of Nursing
and Nursing Service

On looking through past RS:BF employed nurses from Ireland for a period of time in your hospital. These nurses have up to last December gone out on an Immigrant's Visa. However, from 1st December, due to the new Act being brought in, to get their visa has proved very time consuming and tedious, as they also have to obtain sanction from the Nursing Board. All this has caused much concern among would be nurses due to the fact that these take many weeks to obtain.

We have had many enquiries from our members, who wish to go to the U.S. for 3 mths. with a view to returning, asking if anything could be done to hurry through all these formalities. Now, we have been in touch with the American Embassy in Dublin and after some discussion they have agreed to let the nurses go out on a H3 visa if the hospital concerned would be willing to accept them on this visa.

I write to ask you if you would be prepared to accept them on this visa. This would entail filing a petition to the U.S. Dept. of Justice, Immigration & Nationalisation Service. Due to the time taken for these nurses to get the consent of the Nursing Board, we wonder if you require the consent of the Board in this matter.

Sir, I am very anxious to get a reply on this matter as soon as possible, as I have nurses anxiously awaiting the reply. The plane with this years group leaves the end of June and time is running out, so an early reply would be much appreciated.

Thanking you in anticipation,

Yours sincerely,

K. J. Walshe
Kevin J. Walshe

However, we would be very much interested in knowing in what particular service or services she is most interested.

Please give my best personal wishes to Mrs. d'Almeida. I am sure the children will not forget me, but they are included in my good wishes to the family.

Sincerely yours,
[Signature]

In New York I had a long talk with the Director of the School of Nursing, R.N. [Signature] and Nursing Service [Signature].

It is now about a month since we have been in New York. We have been very busy, but we have also had some time to relax. We have been very much interested in the work of the School of Nursing, and we have been very much interested in the work of the Nursing Service. We have been very much interested in the work of the School of Nursing, and we have been very much interested in the work of the Nursing Service.

We have been very much interested in the work of the School of Nursing, and we have been very much interested in the work of the Nursing Service. We have been very much interested in the work of the School of Nursing, and we have been very much interested in the work of the Nursing Service.

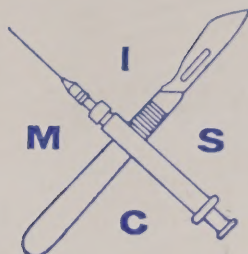

The Exchange Visitor Program is a very important one. It is a program that allows nurses from other countries to come to the United States to work and to study. It is a program that allows nurses from other countries to come to the United States to work and to study. It is a program that allows nurses from other countries to come to the United States to work and to study.

Dear Mr. Walshe:

There must be some mistake, since we have never accepted nurses for a three month period in this Hospital from any country. We would not consider taking a nurse in this Hospital for three months. For any longer period of time she would have to meet the requirements of the Board of Registration in Nursing in this State. In this Hospital there are no exceptions to these two principles.

Dear Sir:

Sincerely yours,

I wish to take the nursing course in your School of Nursing, though I am a graduate Nurse and have successfully passed this course. ^{Ruth Sleeper, R.N.} ^{Director of the School of Nursing and Nursing Service} ^{Tehran Pahlavi}
RS:BF the course, it is now more than two years that I am serving as nurse in the different sections of the provincial hospitals of my country.

I have all my credentials both translated in English and officially certified by the Consulate of the United States of America, which might be forwarded to you upon receipt of your instructions.

I have learnt that you are operating one of the most modern Nursing Schools in the United States. I would be very happy if I succeed to get your admission to take a Nursing Course in your nursing school, and thus have the opportunity of gaining a well experienced and qualified nurse position from the most advanced countries of the world.

I hope you will be kind enough to send me a favorable reply at your earliest convenience.

Yours truly,

N. Farahmand

Dear Miss Farahmand:

Dear Miss Petzold: I am sorry to have to write you that we do not have any courses for graduate nurses in our School. It is only for beginning students in nursing. As I read your letter, I believe you are a graduate, registered nurse in your own country, Iran. This means that you should have something more than we teach in this School of Nursing.

The faculty and I are currently planning some revisions in our program in order to provide more international exchange. You should go either through your own Iranian Nursing more clearly defined Association and the International Council of Nurses on the Exchange, before we Visitor Program in order to have experience in hospitals in this country, or you should consider very carefully going to a college they are using where graduate nurses in this country go to learn more about nursing.

I think it might be wise for you either directly or preferably through your own Iranian Nurses Association to write to the Florence Nightingale Massachus Foundation at the International Council of Nurses, 1 Dean Trench Street, to Barnes Boston. They will then help you to see what the There- schools, London, W. 1, England. They will then help you to see what the There- fore, we possible advantages are for you in this or some other country. Un- fortunately our School would be the wrong one for you, since as a medical- surgical graduate nurse you should be working with graduate nurses and not curri- culum as with beginning students in nursing. Sincerely yours, up and meet Miss Durham in New York for the convention, and will stay over the weekend. If you and your faculty could see us on Monday, May 15th, I will say up and meet Miss Durham in Boston.

I know you are very busy people, but we would appreciate any time you could make available to us. We do not expect to meet you as a group, but rather Ruth Sleeper, R.N. Director of the School of Nursing and several of the people who implement and Nursing Service like any information regard- ing our school we will certainly reciprocate in any way we can. We will anticipate an early reply so that we can begin our plans for travel and lodging.

Thank you for considering our request and we look forward to meeting you.

Sincerely,

April 11, 1967

AIR MAIL

Miss Natalie Petzold
Director of Nursing
Massachusetts General Hospital
Fruit Street
Boston, Massachusetts 02114

Dear Miss Petzold:

As the Assistant Director responsible for curriculum at Barnes Hospital School of Nursing, a diploma school in St. Louis, Missouri, I am interested in the curricula of other schools of nursing.

The faculty and I are currently planning some revisions in our program in order to provide more integration of theory and clinical experience, as well as more clearly defining what should be taught at each level of the program. However, before we plunge headlong into a complete revamping of our program, we'd like to talk with members of other faculties and see what approach to teaching they are using.

Massachusetts General Hospital, I understand, is similar in size and facilities to Barnes Hospital. It would seem we, in diploma education in these hospital schools, would encounter some of the same problems as well as advantages. Therefore, we would appreciate the opportunity of speaking with your faculty regarding your curriculum. Would it be possible for myself and the coordinator of medical-surgical nursing to visit with you for one day in order to view your total curriculum as a step in revising our own? Miss Durham, the coordinator, will be in New York for the convention, and will stay over the weekend. If you and your faculty could see us on Monday, May 15th, I will fly up and meet Miss Durham in Boston.

I know you are very busy people, but we would appreciate any time you could make available to us. We do not expect to meet the faculty as a group, but rather would like to speak with the person primarily responsible for curriculum and several of the people who implement it. If you would like any information regarding our school we will certainly reciprocate in any way we can. We will anticipate an early reply so that we can begin our plans for travel and lodging.

Thank you for considering our request and we look forward to meeting you.

Sincerely,

Joan Hrubetz
Assistant Director of Nursing Education

Miss Elizabeth Main
Assistant Regional Nursing Officer
South-Eastern Regional Hospital Board
11 Drumsbough Gardens
Edinburgh Gardens
Edinburgh 3
Scotland

Dear Miss Main:

We are looking with pleasure to your visit with us.

We look forward with pleasure to your visit at Massachusetts General Hospital. We have reserved the guest room for you in Walcott House, one of our residences for nurses, the night of Monday, May 29-Thursday, June 1, inclusive. The charge for the room will be three dollars each night.

We have reserved the guest room at Walcott House for you for the nights of May 29-June 1 inclusive, for which the charge will be \$3.00 per night. As I review the correspondence of Miss Lepper (Director of Nursing Service) with you and with Miss Yule in London, I am puzzled. Miss Yule wrote on November 10 that you will arrive in Boston on May 29. Will that be morning or evening? Your letter of December 18, 1966, to Miss Lepper does not mention dates. I am wondering what program to plan for you in the School of Nursing on that day, especially if you have just made a transatlantic crossing. Or will you come from Canada?

Director of Nursing Service, has arranged a program with Hospital Tuesday, May 30, is a holiday so nothing can be arranged for that day.

Do let us know when we may expect you. Miss Lepper has made plans for you with Hospital Administration and Nursing Service on May 31 and June 1. Miss Yule had asked for, "a programme from 29th May to 2nd June 1967."

Do these tentative plans of ours for you coincide with your plans?

Helen Sherwin

Sutter Street,

San Francisco.

7th. May '67

Miss H. Sherwin,
Co-ordinator of Science Instruction,
Massachusetts General Hospital,
Boston.

Dear Miss Sherwin,

Thank you for your letter of 26th April which has caught up with me here! This will explain the delay in replying to your letter, and in answer to your other questions. I should perhaps explain that I have been to Canada, will go from here to Washington, then Baltimore and from there to Boston. Since I wrote to this letter, I have been invited to stay with friends of the family while I am in Boston, and will therefore not require the accommodation which you have reserved for me in the nurse's residence. I would, however, take this opportunity to thank you for reserving the accommodation and trust that by cancelling it I am not causing any inconvenience.

My address will be as follows:-

Mr. + Mrs I. FINLAYSON,
205. SYLVIA ST.,
ARLINGTON. MASS.

As I am due to arrive in Boston on Saturday, 27th May and will have the weekend there, I should be quite "fresh" and alert to start the program at Massachusetts General Hospital!

So far as dates are concerned, I shall be in Boston until Sunday, 4th June, and free to fit into any arrangements which will be made for me during the week 29th May - 2nd June.

I do hope that this letter will help to clear up any misunderstanding about the dates. I look forward to meeting you and to hearing of your program of nursing education.

Yours sincerely,
Elizabeth Main.

BACKGROUND MATERIAL ON

MRS. JULIA-ELIZABETH MANTZOURANIS,

THESSALONIKI, GREECE

IN THE UNITED STATES, APRIL 10 - JUNE 9, 1967

Participant in the International Visitor Program, Bureau of Educational and Cultural Affairs, U.S. Department of State. U.S. program arrangements by the National Social Welfare Assembly, with the cooperation of the U.S. Public Health Service.

Primary Interest: Nursing education and services.

Date of Birth: November 10, 1921.

Present Position: Director of Thessaloniki State School for Nurses, since 1954.

Past Positions: Instructor of Nursing Art, Greek Red Cross, for six years;
Acting Supervisor of Nursing Service, Greek Red Cross Hospital, Athens;
Instructor of Nursing Art, American aid mission's Public Health Service;
Representative of the National Association of Greek Graduate Nurses in Northern Greece, for three years.

Academic Training: Greek Red Cross: diploma after three-year course at Nurses and P.H. Nurses School; Certificate after six months' specialization in Public Health Nursing.

International Red Cross: Certificate after specialization in teaching Home Nursing.

University of Minnesota: Certificate of Merit after one year of specialization in nursing education.

Membership in Professional Organizations:

Member, National Association of Greek Graduate Nurses and P.H. Nurses;

Member, Board of Trustees, National Children's Station, Stavroupolis.

Travel Abroad: U.S. in 1948, as USPHS grantee to attend a post-basic course in Nursing Education at the University of Minnesota where she specialized in nursing administration at the School of Nursing.
Scotland, June-July, 1956, as representative of the Ministry of Social Welfare to participate in the European Conference held by the World Health Organization on Post-Basic Nursing Education; on return trip visited hospitals and nurses' schools in Paris and Rome.
Turkey, April 1953: appointed by Greek Red Cross as Chief Nurse of the mission sent to Turkey after the earthquakes.

Following her year of study at the University of Minnesota in 1948, Mrs. Mantzouranis returned to Greece. Her experience in the United States enabled her to make a significant contribution toward raising the standards of nursing and developing the nursing profession in Greece. The Thessaloniki School for Nurses, which Mrs. Mantzouranis opened in July, 1954, has grown in size and quality. It now offers a three-year course with a Diploma, and Mrs. Mantzouranis hopes eventually to have it become a part of the University of Thessaloniki.

Under her present grant, Mrs. Mantzouranis would like to refresh her knowledge and to study intensively certain aspects of nursing in the United States which are particularly pertinent to Greece. Some of the matters she would like to discuss with her American counterparts are:

- The curricula of schools of nursing; how they are developed; how they differ and why; what standards are used (she is interested not only in collegiate schools but lower schools, as nursing schools in Greece are not yet at the collegiate level).
- The examinations given by State Boards; what they cover, how they are organized.
- Incentives, counseling, i.e. techniques for attracting high school graduates into the nursing profession.
- Policy and procedures governing acceptance of students in schools of nursing.
- Policy concerning rules and regulations governing students in training.
- Placement services, and their policies and operation.

Mrs. Mantzourani would also like to have:

- Conferences with officers of the American Nursing Association.
- Conferences with officers and student nurses associations (she is interested in establishing such an association in Greece);
- Periods of observation in hospitals, and discussion of their programs for nurses.

It is hoped that during her stay in the United States Mrs. Mantzouranis will also have opportunities to meet Americans of varied backgrounds and interests, and to observe the broad aspects of our society. In this context she will welcome invitations for informal hospitality.

Mrs. Mantzouranis' knowledge of English is excellent.

Miss Natalie Petzold
Director, School of Nursing
Massachusetts General Hospital
Boston, Massachusetts

Dear Miss Petzold ,

This morning in an interview, Miss Sherwin spoke to me of the possibility of our benefitting by the nursing education given at the hospital. Miss Sherwin suggested that I write to you to explain exactly what we are interested in, and if we would be permitted to attend conferences or courses .

We are four nurses here caring for the disabled, ill and retired priests of the Archdiocese of Boston. We are located directly across from Massachusetts General Hospital. We are particularly interested in geriatrics, rehabilitation , diabetes , CVA's , circulatory disturbances and diseases of elderly people generally .

Last March two Sisters went to the rehabilitation course, but unfortunately family illness prevented both from continuing.

Thank you for your kind consideration, Miss Petzold. We hope you will be able to help us.

Yours truly ,

Sister Mary Magdalen

Arrangements for the visit

Sister Mary Magdalen C.B.S.

Regina Cleri

60 William Cardinal O'Connell Way

Boston, Massachusetts 02114

Dear Sister Mary Magdalen:

I am sorry for the delay in answering your letter in which you asked about three Sisters and yourself attending some of our classes, but at the time the teachers had not planned the dates for classes for the next term.

We shall be happy to have you attend classes that might be helpful to you in the term beginning November 25, 1968 and extending through January 1969. Miss Hardeman, Coordinator for the Third Year Nursing program (tel. 726-3162) or one of her faculty will get in touch with you about the dates and topics and meeting places for classes.

The total cost will be based on the number of hours attended, at \$1.00 an hour per person. This represents the pro-rated tuition charge to our Senior students.

I do hope that we can work out a plan with you, and look forward to meeting you.

Sincerely yours,

Natalie Petzold, R.N.

Director of the School of Nursing

POLICIES FOR VISITORS

The School of Nursing is pleased to accommodate requests received from nurses and others who wish to learn about various aspects of the School of Nursing and its program. However, since preplanning is necessary to make the visit possible and most worthwhile, these policies and guidelines have been adopted

Arrangement for the visit

A written request, sent at least three weeks in advance of the visit, and its purpose and the services, programs and facilities which the visitor would like to observe or learn about should be sent to Miss Natalie Petzold, Director of the School of Nursing. For university course projects, group or individual arrangements should be made through a university liaison officer or adviser.

Time and length of visit

Observers can be accommodated from October 1 to June 1. Arrangements cannot be made during summer months because of staff vacations.

In general visits should be limited to a maximum of five days; and will be arranged Monday through Friday, exclusive of holidays.

Fee

\$25.00 a day, or part of a day.

Since the fee is determined by the time spent on making arrangements as well as the visit itself, special requests from individuals within a group may be accommodated at an extra charge.

Feb 13, 1970

MASSACHUSETTS GENERAL HOSPITAL

Miss Helen Sherwin
Coordinator of Science
School of Nursing
Massachusetts General Hospital
Boston, Massachusetts

Dear Miss Sherwin:

I was very pleased to have had the opportunity to speak with you at the Regional Workshop in November. My only regret was that there was not enough time for us to visit the School of Nursing at Massachusetts General Hospital.

I was anxious for Mrs. Norman and the Chairman of our Curriculum Committee to visit the hospital perhaps during the first week in December for two days, if this is convenient for you. Mrs. Norman and I discussed the fact that an opportunity to observe your own program would be most valuable at this time. If this can be arranged, could they be housed in the dormitory at the hospital?

Thank you for whatever consideration you may give this request. I will await your answer.

Very truly yours,

Edith B. Benoit

Dear Miss Benoit:

Dear Miss Petzold:

Miss Sherwin has referred to me your request to visit
the School of Nursing for two days the first week in December. 1968
by Mrs. Edith B. Benoit.

I hope very much that we can work out a program that would
be worth while, and therefore would appreciate it if you could de-
scribe in some more detail the specific aspects of our program which
you would like to observe or discuss. In this way I shall try to
arrange to have the faculty members responsible available to meet
with Mrs. Norman and the Chairman of your Curriculum Committee.
5 at 7:30 p.m.

I have enclosed a copy of our policies for visitors and
look forward to hearing from you so that we can arrange further for
a visit. Rooms will be available in Walcott House. The charge
is \$3.00 per night for a room.

I have enclosed a resume of specific items we would like to discuss
and observe while visiting with you.

Sincerely yours,

We look forward to seeing you and your staff the week of
December 1st.

Dear Miss Pietzold:

This letter refers to your correspondence received November 22, 1968 by Mrs. Edith B. Benoit.

Mrs. Frances Crider Carter, Instructor Medical-Surgical Nursing, and Chairman of the Curriculum Committee and I will be arriving in Boston on Tuesday December 3rd at 8:20 p.m. for a 2 day visit. We both **wish** to avail ourselves of accommodations at Walcott House for the two nights Tuesday and Wednesday, and plan to return to New York Thursday December 5 at 7:30 p.m.

May we be informed as to arrangements for meals, and any other information you feel would be of value to us.

I have enclosed a resume of specific items we would like to discuss and observe while visiting with you.

We look forward to seeing you and your staff the week of December 1st.

Dear Miss Norman:

We are looking forward to having you and Mrs. Carter visit our School on December 11 and 12. Rooms have been reserved for you in Walcott House for the nights of December 10 and 11. When you arrive in Boston the best thing to do would be to take a taxi directly to Walcott House, 32 Fruit Street. Meals may be purchased in the General Cafeteria on an a-la-carte basis or in the Coffee Shop. The Coffee Shop, however, is not open for breakfast, so you would go to the Cafeteria for this.

As you will see on the enclosed program, your first appointment is with me in my office which is on the first floor of the School building, Ruth Sleeper Hall, 40 Parkman Street.

Sincerely yours,

Encs.

We are interested in reviewing with you* overall curriculum and method of implementation in your School of Nursing.

I have outlined below specific areas of interest:

- over curriculum + related areas*
1. The length of the total program with components. Does it follow a semester or trimester pattern?
 2. Implementation of the physical and behavioral sciences.
 - a. Do you have an affiliation with a college or university?
 - b. Are instructors nurses or non-nurses?
 3. Nutrition and Pharmacology.
 - a. Integrated throughout?
 - b. Is teaching Dietitian available on full time basis to follow nursing students into clinical laboratory?
 4. Medical-Surgical Nursing.
 - a. Organization.
 - b. Divisions, etc.
 - c. Continuity and sequence.
 - d. Experience in: Operating Room, I.C.U. and Recovery.
 - e. Specialties: (eg Eye, E.N.T.)
 - f. Others.
 5. Obstetrical Nursing.
 - a. General placement in relation to other courses.
 - b. Labor and Delivery experience.
 - c. Premature nursery experience.
 6. Pediatric Nursing.
 - a. General placement and approach.
 - b. Are nursery schools used?
 7. Public Health Nursing.
 - a. Affiliating agencies.
 - b. Length of experience.
 - c. Management.
 8. Advanced Nursing Courses.
 - a. Psychiatry - amount and management.
 - b. Are courses in the following areas integrated or included under advanced Medical-Surgical Nursing:
 1. Rehabilitation
 2. Cancer Nursing
 3. Neurological and Neuro-Surgical Nursing.
- HS + J9.
+ NIT + LF*

Program For

9. Placement of following:
 - a. Professional Nursing. Woman, Educational Director
 - b. Disaster Nursing. and
 - c. Management of Patient Care. Inman of the Caribbean Committee
 - d. Senior nursing practice. Hospital Center

May we also include in our discussion:

1. Recruitment program - how instituted.
2. Admission policies including entrance examinations (cut-off points, etc.)
3. Use of standardized achievement tests in school (N.L.N.)
4. State Board results and relationship to 2 and 3.

5. College credit allowed for your courses.

6. Ratio of theory to practice.

7. Ratio of students to instructor in the Clinical Laboratory.

8. Faculty

- a. Role and organization
- b. Preparation

9. Adequacy of clinical facilities.

10. Student Organization.

11. Guidance Program.

12. Availability of Psychiatrist for school.

13. Provision for remediation (if necessary.) in any areas.

14. Preparation for State Board.

- a. Policy with regard to failure.

Dear Miss Petzold:

I wish to express sincere thanks for the kind consideration shown by you and your staff in making our two-day visit a most valuable experience.

In spite of a busy schedule, each of your faculty members was most gracious in sharing the many aspects of your curriculum in keeping with our request.

The warmth with which we were received was gratifying and we express special thanks to Miss Sherwin for initiating our visit through your office.

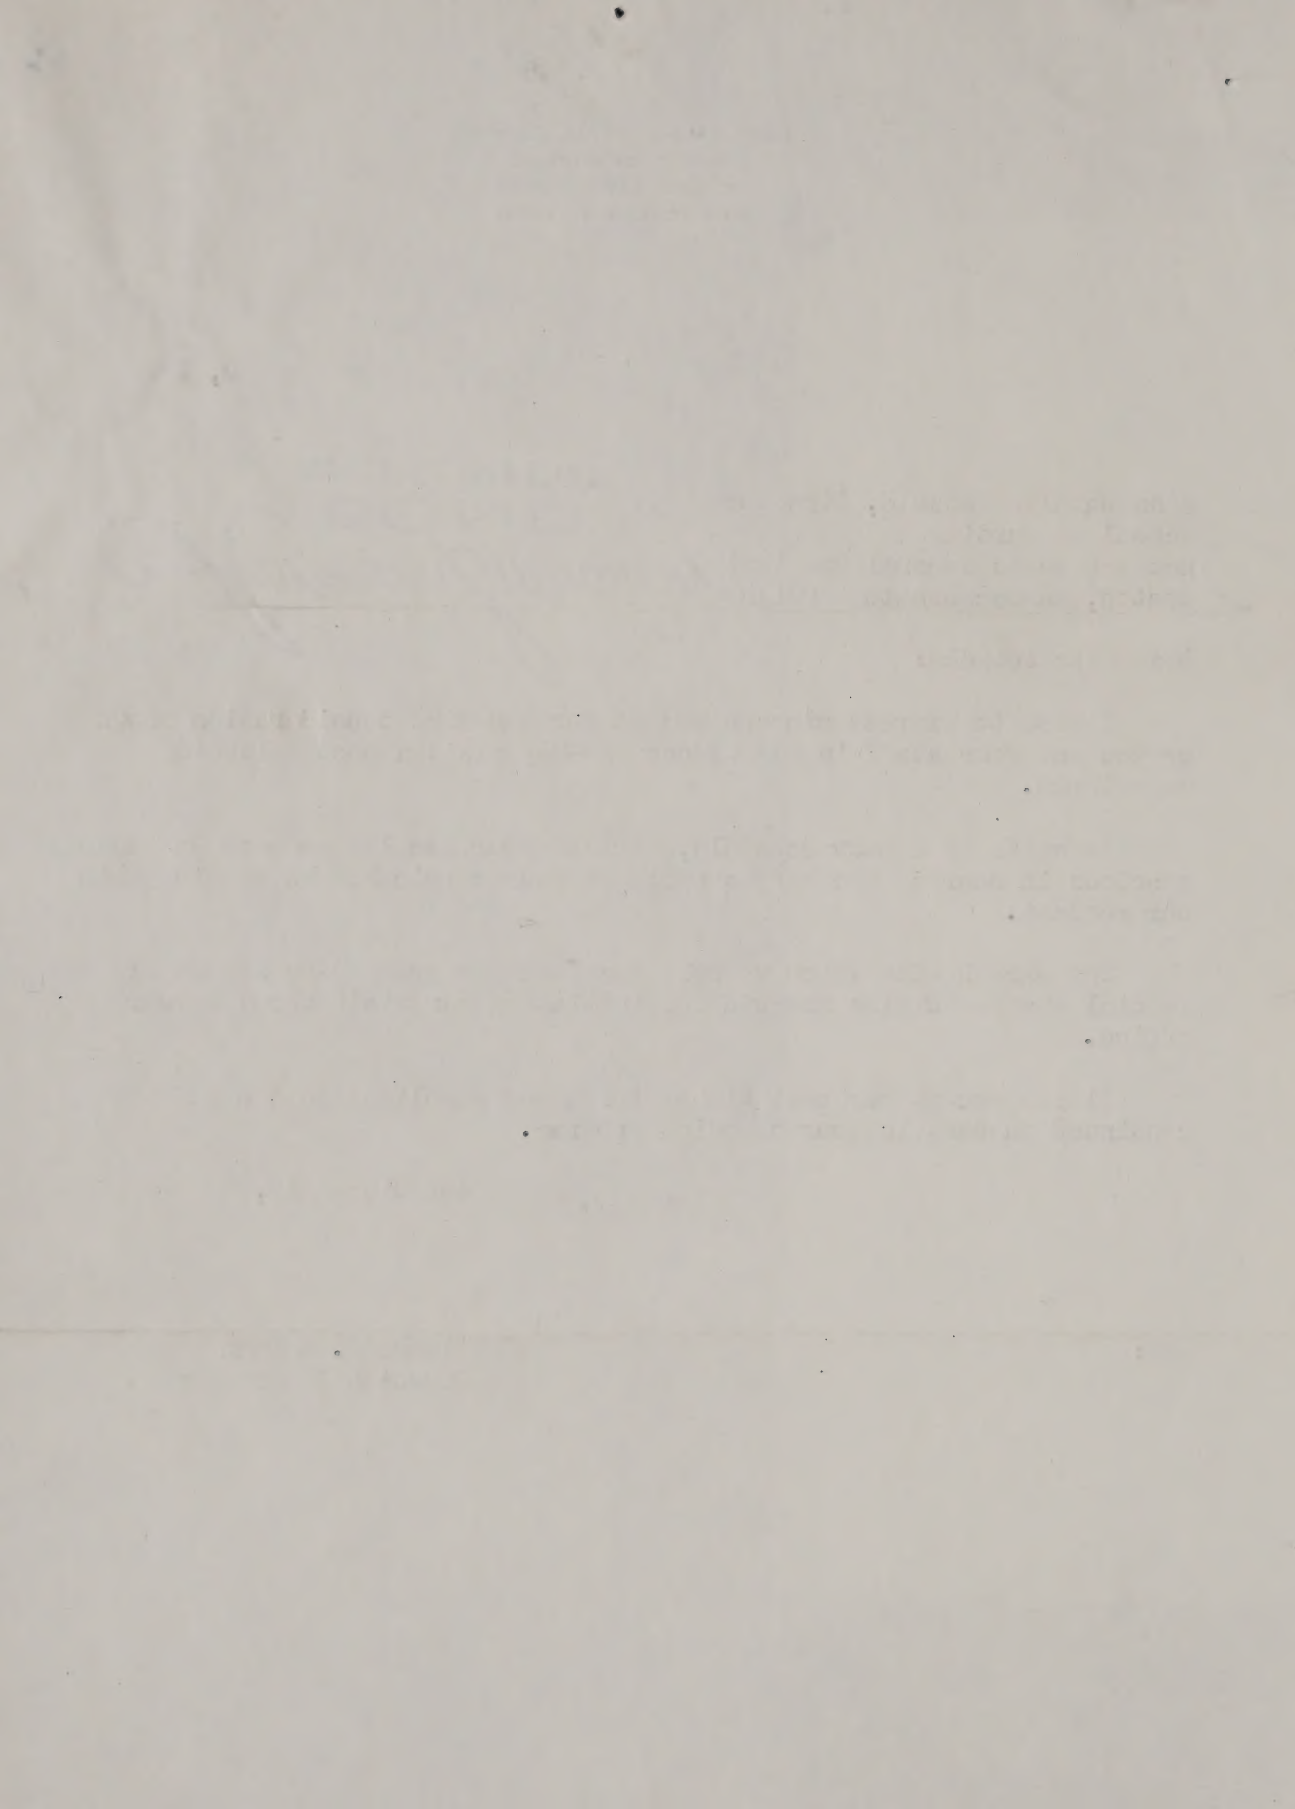

Please accept our best wishes for a happy holiday season and continued success in your on going program.

Most Sincerely,

Mildred M. Norman
